Section 6 - NETWORK SWITCHED SERVICES (Cont'd)

6.4 SERVICE DESCRIPTIONS (Cont'd)

6.4.3 PBX Trunk Service

a. General

PBX trunks are provided for connection of customer-provided PBX terminal equipment. Trunks can be delivered at a DS0 level or at the DS1 level.

DID service allows callers to reach the called party without going through a PBX attendant. DOD service allows end users to dial outside of a PBX system without going through the PBX attendant to get access to an outside line. Digital trunks cannot be two-way trunks, but must be ordered as with either Direct Inward Dialing (DID) or Direct Outward Dialing (DOD).

For DID configured PBX trunks additional charges apply for Direct Inward Dial Station numbers.

All DID subscribers are subject to the provisions set forth in NY PSC Tariff No. 5, sections 3.3.2, 3.3.4 and 3.3.6
