

PSC No: 120 - Electricity  
New York State Electric and Gas Corporation  
Initial Effective Date: December 1, 2003

Leaf No. 41  
Revision: 0  
Superseding Revision:

#### GENERAL INFORMATION

14. Competitive Metering Option: (Cont'd.)

- (a) This Section contains the rates, terms and conditions of the Corporation's Competitive Metering Option, consistent with the Commission's New York Practices and Procedures for The Provision of Electric Metering In A Competitive Environment, set forth within Addendum-MET of PSC 119 ("Manual"), or superseding issues thereof. Qualified Customers, defined as those who have a metered demand of at least 50 kW at each meter in any two consecutive months during the most recent twelve (12) month period, may select the Competitive Metering Option as set forth in this Schedule.

Once the PSC issues a list of Meter Service Providers (MSPs) and Meter Data Service Providers (MDSPs), both of which have met the PSC's eligibility requirements for competitive metering, Qualified Customers can elect the Competitive Metering Option.

Note that a Direct Customer, defined as a customer eligible for electric retail access, with 1 MW or greater of load in any hour that there is a scheduled transaction that acts without an ESCO and acts to procure Electric Power Supply solely for its own use and not for resale, is prohibited from acting as its own MSP or MDSP.

Qualified Customers may obtain electric metering services from NYSEG or an entity other than NYSEG ("competitive metering services") consistent with the provisions of this Schedule and PSC 119 - Electricity. Competitive metering services may be obtained directly from a MSP which meets the requirements of Section 14.d below.
