PSC No: 120 - Electricity
New York State Electric and Gas Corporation
Initial Effective Date: December 1, 2003

Leaf No. 265
Revision: 0
Superseding Revision:

SERVICE CLASSIFICATION NO. 8 (Continued)

SPECIAL PROVISIONS: (Cont'd.)

(h) Residential Solar Electric Service Option: (Cont'd.)

Month	Day	Night
Jan, Feb, Mar, Oct, Nov and Dec	100%	
Apr	94.6%	5.4%
May	89.8%	10.2%
Jun	88.3%	11.7%
Jul	89.8%	10.2%
Aug	93.1%	6.9%
Sep	97.5%	2.5%

In the event the amount of electricity during either the "Day" or the "Night" period, supplied by the Corporation to the customer-generator, exceeds the amount produced by the customer-generator for the corresponding period, the Corporation shall bill for such electricity supplied at the rates provided in this service classification. In the event the amount of electricity produced by the customer-generator during either the "Day" or the "Night" period exceeds the amount supplied by the Corporation for the corresponding period, the Corporation shall apply a kWh credit, to the customer's next bill to offset the next month's usage for the corresponding period.

At the end of the year, or annualized over the period that service is supplied under this provision, the value of any credit remaining on a customer's account for excess electricity produced by the customer-generator shall be paid to the customer at the Corporation's avoided cost for energy. Payment will occur in the form of a voucher which will be issued to the customer-generator, for use in offsetting any of the issuing utility's bills directed to that customer during the year following the date of the voucher.

Pursuant to P.S.C. No. 119, section 3.A., customers are responsible for providing all meter boxes and sockets. In the event that the Corporation determines that it is necessary to install a dedicated transformer to protect the safety and adequacy of electric service provided to other customers, the customer-generator shall pay for the cost of installing the transformer up to a maximum amount of $350.00 the Corporation will not charge any additional solar electric specific interconnection costs incurred by NYSEG other than $350.00 for a dedicated transformer, if necessary. Customers are responsible for any costs related to the installation of their solar generating equipment. Notwithstanding the provisions herein, residential solar electric customers are responsible for meeting all otherwise applicable provisions.
