

PSC No: 120 - Electricity  
New York State Electric and Gas Corporation  
Initial Effective Date: December 1, 2003

Leaf No. 303  
Revision: 0  
Superseding Revision:

SERVICE CLASSIFICATION NO. 12 (Continued)

(g) Residential Solar Electric Service Option: (Cont'd.)

Usage under this provision will be measured through two separate meters (one TOU meter to measure electricity provided to the customer from Corporate facilities and one non time-differentiated meter to measure electricity generated by the customer-generator ). Usage measured through each meter will be netted to determine the total amount of electricity provided by the Corporation to the customer-generator or from the customer-generator to the Corporation for each billing period.

This meter arrangement requires the allocation of the non-differentiated meter PV output to the appropriate TOU periods.

The following generating credit allocations reflect a pro ration to the On-Peak, Mid-Peak, and Off-Peak TOU periods based upon the number of hours in each month the PV generation is estimated to occur during each period. The PV meter outflow is allocated to the various time-differentiated periods according to the allocation factors below and will be prorated for billing periods which cover more than one month.

<u>Month</u>	<u>On Peak</u>	<u>Mid Peak</u>	<u>Off Peak</u>
Jan	13.6%	86.4%	
Feb	29.9%	70.1%	
Mar		100%	
Apr		100%	
May		97.8%	2.2%
Jun	44.3%	51.5%	4.2%
Jul	45.8%	51.7%	2.5%
Aug	45.6%	54.4%	
Sep		100%	
Oct		100%	
Nov		100%	
Dec	15.8%	84.2%	

At the end of the year, or annualized over the period that service is supplied under this provision, the value of any credit remaining on a customer's account for excess electricity produced by the customer-generator shall be paid to the customer at the Corporation's avoided cost for energy. Payment will occur in the form of a voucher which will be issued to the customer-generator, for use in offsetting any of the issuing utility's bills directed to that customer during the year following the date of the voucher.
