Frontier Communications of America, Inc.  
Initial Effective Date: January 10, 2004

Section: 2 Leaf: 53  
Revision: 2  
Superseding Revision: 1

SECTION II - SERVICE DESCRIPTIONS *continued*

2.5 SERVICE OPTIONS *continued*

2.5.42 FrontierWorks LD *continued*

B. Usage Charges *continued*

A single optional Block of Time (BOT) quantity of minutes can be ordered in conjunction with FrontierWorks LD, in monthly increments of 250, 500, and 1000 minutes, for an additional monthly recurring charge (MRC). The MRC for the BOT is applied at the account level, and can be found in Frontier Communications of America, Inc.'s Domestic Pricelist. Any usage above the 100 free minutes and the BOT minutes will be rated at an intrastate overage rate per minute, and these rates can be found in this tariff. Overage rates (T) may vary depending upon which BOT is selected. If a new customer to FrontierWorks LD signs up mid-billing cycle, free minutes, the BOT MRC and the BOT minutes will be prorated. If moving between BOTs, minutes and MRCs will be prorated based upon the number of days of that billing cycle and will be charged the appropriate overage rate for the BOT selected at the time the call was completed. Usage will be billed in arrears and MRCs will be billed in advance. Excluded from the BOT minutes are: long distance Directory Assistance, calling cards, and 900 calls.

In the event a customer has multiple lines on their account, and any of the auxiliary lines are not on the FrontierWorks Small Business Solutions product of the associated LEC, those lines are not eligible for the 100 free minutes or a BOT selection offered by FrontierWorks LD. If a customer selects an FCA product for auxiliary lines other than FrontierWorks, the customer will be subject to the rates, terms and conditions of that product. If the associated LEC is Frontier Telephone of Rochester, the overage rate corresponding to the highest BOT chosen will be used for non-pre-subscribed auxiliary lines due to equipment limitations. For all other associated LECs, a FCA commercial product may be selected for auxiliary lines.
