

PSC No: 120 - Electricity  
New York State Electric & Gas Corporation  
Initial Effective Date: October 30, 2005

Leaf No. 135  
Revision: 7  
Superseding Revision: 4

SERVICE CLASSIFICATION NO. 2 (Continued)

SPECIAL PROVISIONS:

(a) Space Heating Service:

(Service under this provision will no longer be available to new customers after November 1, 1977.)

Any customer using general service under this Service Classification and also using electricity as the sole source of space heating in a premises or segregated portion of a premises may, upon written application to the Corporation, have the energy used for such space heating, as well as air conditioning and water heating for such electrically heated space, separately metered. The separately metered space heating service will be charged under the same rate choice the customer selected for their non-heating service under this Service Classification.

The per kilowatt-hour rate for such separately metered space heating service under the selected rate choice is as shown below. There is a separate minimum charge. A complete description of these rate choices appears previously in this Service Classification.

	ESCO Price Option * (EPO)	NYSEG Variable Price Option* (VPO)
<b>Energy Charge</b> (All kilowatt-hours, per kilowatt-hour)	\$0.01659	\$0.01659
<b>Delivery Adjustment</b> (All kilowatt-hours, per kilowatt-hour)	(\$0.004)	N/A

\*Customers are responsible for a separate per kilowatt-hour Transition Charge (Non-Bypassable Charge) and any Commodity Charges at the same rate associated with the selected rate choice for their non-heating service. The ESCO Price Option (EPO) components above include a fixed charge for NYSEG delivery service and a Delivery Adjustment (credit) of \$.004 per kWh.

NYSEG Fixed Price Option (FPO) and ESCO Option w/Supply Adjustment (EOSA)	Effective Date**		
	01/01/05	04/01/05	10/01/05
<b>Delivery Charges</b>			
Energy Charge (All kilowatt-hours, per kilowatt-hour)	\$0.01659	\$0.01659	\$0.01659
<b>Transition Charge</b> (All kilowatt-hours, per kilowatt-hour)	\$0.01540	\$0.01359	\$0.00385
Sur-Credit Applicable 9/1/06-12/31/06 (All kilowatt-hours, per kilowatt-hour)	(\$0.0050)	(\$0.0050)	(\$0.0050)
<b>Commodity Charge</b> (All kilowatt-hours, per kilowatt-hour)	\$0.07110	\$0.07811	\$0.10614

\*\* The rate for NYSEG's Fixed Price Option (FPO) may be revised every six months on April 1 and October 1 of each year to reflect increases in the cost of providing fixed commodity service. The revised rate will be calculated using the methodology approved by the Commission in Case 01-E-0359 for calculating the commodity portion of FPO prices. Such revised rate will be utilized only if greater than the initial FPO rate effective January 1, 2005. However, the revised rate will be applicable only to a customer who chooses or is placed on the NYSEG Fixed Price Option (FPO) rate or the ESCO Option with Supply Adjustment (EOSA) rate, on or after the effective date of the revision. The revised rate remains in effect for such customers through December 31, 2006, regardless of whether the customer chooses the FPO rate or EOSA rate.

NYSEG will file such revised FPO rates with the Public Service Commission not less than three days prior to the effective date of the revised rate.

The minimum charge is the Demand Charge based on the current month's actual billing demand. Service under this Special Provision (a) will be supplied on an annual basis for as long as non-heating service is supplied under this Service Classification.
