

PSC No: 19 - Electricity
Rochester Gas and Electric Corporation
Initial Effective Date: August 29, 2005
Issued in compliance with order in Case 03-E-1761 issued and effective April 14, 2005

Leaf No. 223.1
Revision: 0
Superseding Revision:

SERVICE CLASSIFICATION NO. 11 (Cont'd)

INDIVIDUAL ELECTRIC SERVICE AGREEMENT:

Determination as to whether or not the Corporation will enter into an Individual Electric Service Agreement will be based on an assessment of the need to or attract a Customer's load or expand the Customer's usage and the demonstration of economic benefits to non-participating Customers.

Upon 30 days notice to the Corporation, and upon acceptance of the application by the Corporation, such a Customer's eligible load may qualify for an Individual Electric Service Agreement, pursuant to this Service Classification. The Individual Electric Service Agreement will be negotiated to avoid undue discrimination between similarly situated Customers.

The Individual Electric Service Agreement shall contain and specify all terms and conditions necessary for the Corporation to provide such service to the Customer, including but not limited to:

- (A) The term of service.
- (B) The characteristics of service in addition to Character of Service listed above.
- (C) A listing of the rates and charges to be paid for services rendered.
- (D) A statement that the Customer has met all of the requirements of this Service Classification, including the following:
 - (1) Customer must provide documentation as to its eligibility under the Applicable to the Use of Service For provision of this Service Classification. Customer must also demonstrate proof of the existence of a competitive viable alternative, and its planned procedure to disregard same.
 - (2) The documentation shall also include the results of a comprehensive production analysis and energy audit, including, but not limited to process usage, lighting, and HVAC requirements as presented by independent consultants, licensed in New York State as professional engineers, or as otherwise acceptable to the Corporation. The Customer agrees to evaluate and assess in good faith the resulting recommendations from the comprehensive production analysis and energy audit for inclusion in the Customer's facility.
- (E) The Customer will provide, in a form acceptable to the Corporation, its pricing objective needed to attract the Customer or expand its usage. The pricing objective shall specify the relief from the otherwise applicable standard tariff rate that is necessary to attract the Customer or expand the Customer's load, recognizing contributions towards achieving that objective from other economic development entities.
- (F) The documentation shall demonstrate the Customer's participation in, or efforts to participate in, available State and/or local economic development programs as reviewed and attested to by the appropriate agency(ies) and Economic Development staff employed by the Corporation. To that end, the Corporation will coordinate a comprehensive program of development initiatives that are available and applicable from the private and/or public sector(s). Each Individual Electric Service Agreement will identify billing procedures provided under the Corporation's economic development tariff, contracts, and programs (including NYPA economic development programs) as appropriate.
