Customers not selecting the PAETEC Advantage Local Service option may choose to select Company basic local services in combination with, or independent of, purchase of associate long distance services as contracted or tarified in Company's MI OS Rate Sheet No. 1. Customers availing themselves of this option for local service will be assessed a monthly recurring charge set at 5% less than the associated residential or business flat rate of the incumbent local exchange carrier serving the same region in which the Customer is physically located. The Customer may select an option to purchase the service via month to month billing or via a set term from one to three years. Applicable tarified incumbent local exchange carrier discounts for term services would be the basis by which the 5% Company reduction in rate would be applied.

This rate discount does not apply to optional features and services selected by the customer but are as tarified herein.
