COMPANY: VILLAGE OF ARCADE
INITIAL EFFECTIVE DATE: 09/01/2005

LEAF: 9.1
REVISION: 1
SUPERSEDING REVISION: 0

SERVICE CLASSIFICATION NO. 2A (CONT'D)
General Service - Demand Metered

SPECIAL PROVISIONS:

- A. Any customer having two or more apartments which are located on the same premises and is currently supplied through one meter, shall be billed for such service under this classification.
- B. Standby or breakdown service will be furnished under this classification to a customer part or all of whose source of energy, whether electrically or mechanically produced, shall be introduced or permitted, directly or indirectly, in connection with the operation of customer's equipment. For such service the monthly demand shall be taken at not less than seventy-five percent of the highest measured demand determined in any of the preceding 12 months
- C. Where the installation includes devices which have a highly fluctuating or large instantaneous demand, such as X-ray apparatus, welders, etc., the demand of such devices shall be added to the monthly maximum demand determined either by meter or by estimate as above provided. The demand of such devices shall be taken either as the rated capacity to supply adequate service to such apparatus, or as determined by test.
- D. For a customer whose demand in a month during the Seasonal Customer Winter Period (December through March) is 25% or less than the highest recorded maximum demand during the last Summer Period (April - November), the Demand Charge for usage during that month will be \$2 per kW.

Customers who wish to commit to reduce usage for additional months and, therefore, extend the Seasonal Customer Winter Period can do so providing they can come to a mutually agreeable period with the Village of Arcade.

PURCHASED POWER ADJUSTMENT

The charges set forth in this service classification shall be subject to a purchased power adjustment as explained in Rule IX of the NYMPA generic tariff.

Issued by: Mayor Michael R. Doster, 17 Church Street, Arcade, New York 14009
