

PSC NO: 15 ELECTRICITY

LEAF: 50

COMPANY: CENTRAL HUDSON GAS &amp; ELECTRIC CORPORATION

REVISION: 1

INITIAL EFFECTIVE DATE: 04/01/05

SUPERSEDING REVISION: 0

### 9. CUSTOMER'S INSTALLATION

The applicant or customer shall furnish the service lateral or portion thereof in accordance with General Information Sections 7 of this schedule, the service entrance and a proper location and support for the Company's meter as specified in the Company's "Specifications and Requirements for Electric Installations."

The customer's wiring, equipment, and appliances must be safe, adequate and in accordance with generally accepted practice and not liable to cause detriment to the service furnished by the Company to other customers.

Neither by inspection nor nonrejection, nor in any other way, does the Company give any warranty, expressed or implied, as to the adequacy, safety or other characteristics of any structures, equipment, wires, appliances or devices owned, installed or maintained by the customer or leased by the customer from third parties.

The customer's wiring, equipment, and appliances shall be maintained and repaired by an electrical contractor or other qualified person selected by the customer whenever possible. When no other qualified person is available and the Company is able to do so, the Company will repair or adjust the customer's equipment or appliances at the customer's expense.

The charges for such work performed by the Company will include a charge for labor, auto expense, and supervision based on the time required to do the work and a charge for the material used.

For material used the charge will be the price paid for it by the Company plus an allowance for handling costs.

The combined charges for such work will be reduced by a discount reflecting the Company's saving in billing and collection expense when such charges are paid to the Company employee doing the work at the time when it is finished.
