SECTION II - SERVICE DESCRIPTIONS *continued*

2.5 SERVICE OPTIONS *continued*

2.5.39 Frontier FlexMinutes *

(T)

Frontier FlexMinutes is a non-distance sensitive product that includes any combination of 300 or 500 free intrastate and interstate minutes, direct dial 1+ outbound service and FLEX 800 PIN based toll free and calling card. This plan is available to customers of local exchange companies with whom the carrier has a billing and collections contract. Customer must subscribe to this product on the main billing number on the account. Free usage allowance of minutes is determined by Customer's choice of Frontier FlexMinutes plan from Frontier Communications of America, Inc.'s Domestic Price List.

The monthly recurring charge is applied at the account level, and can be found in Frontier Communications of America, Inc.'s Domestic Price List. International rates for this product are found in the Frontier Flex Minutes International Schedule in the International Pricelist. Rates for Frontier Flex Minutes can be found in the Price List in Addendum 1 of this tariff.

Frontier FlexMinutes includes the attributes of the Frontier Communications of America product FLEX800, and the rates, terms and conditions for FLEX800 found in this tariff. Frontier FlexMinutes exceptions to the standard FLEX800 product are: one toll free number is included at no charge (with additional toll free numbers charged at the standard FLEX800 rate), the calling card pin surcharge does not apply when dialed calls fall within the free usage allowance of minutes, and FLEX800 domestic calls are charged the standard FLEX800 rates when they occur outside the free usage allowance of minutes, specified by the corresponding Frontier Flex Minutes plan chosen from Frontier Communications of America, Inc.'s Domestic Price List.

* The inclusion of the FLEX800 PIN based toll free and calling card product offering, in conjunction with Frontier FlexMinutes, will be grandfathered for existing customers effective January 15, 2005
