SERVICE CLASSIFICATION NO. 4**NATURAL GAS MOTOR VEHICLES****APPLICABLE TO THE USE OF SERVICE FOR:**

Service to any customer (already taking service under another service classification) for the sole purpose of fueling natural gas motor vehicles. Service shall be metered separately from all other service taken and is subject to restrictions as provided in the Special Provisions herein.

Service is also available on a first-come, first-serve basis at compressor stations owned and operated by the Company and located at Company facilities and is subject to restrictions provided in the Special Provisions herein.

CHARACTER OF SERVICE:

Continuous - for customers in Categories 1, 2 and 4 below, natural gas or a mixture of natural gas and synthetic natural gas with not less than 1,000 Btu per cubic foot. For gas compressed by the Customer on their premises, normal pressure will be not less than 4" water column. For gas compressed by the Company, the maximum delivery pressure will be provided in accordance with the NFPA-52 standards and Customer requirements.

Interruptible - for customers in Category 3 below, natural gas or a mixture of natural gas and synthetic natural gas with a Btu content of not less than 1,000 Btu per cubic foot. For gas compressed by the Customer on their premises, normal pressure will be not less than 4" water column. For gas compressed by the Company, the maximum delivery pressure will be provided in accordance with the NFPA-52 standards and customer requirements. Customers may take service under this category when the Company has facilities available and adequate for the load.

PRICE: (Per Month)

The monthly price per therm will be established, at the sole discretion of the Company, for the following ten (10) categories of service:

Category 1A - Customers who purchase natural gas for use in fuel filling facilities owned or leased and operated by the Customer and whose alternate fuel is Regular Unleaded Gasoline, or who have no alternate fuel.

Category 1B - Customers who purchase natural gas for use in fuel filling facilities owned or leased and operated by the Customer and whose alternate fuel is Propane.
