3. Gas service supplied at Company-owned and operated compressor stations is subject to the Company's sole determination that sufficient capacity exists at its compressor stations to adequately serve Company and Customer Natural Gas Vehicle requirements.
4. The Company reserves the right to accept an application under this service classification as will, at the Company's sole judgement, permit it to sell the gas it has available for sale without requiring any extension of or additions to its compressor station facilities located on Company premises.
