SERVICE CLASSIFICATION NO. 4 (CONT'D)
General Service - Demand Metered

TRANSFORMER DISCOUNT

A credit of 5.0% of the monthly demand charge shall be applied to the total bill of a customer that owns and maintains its transformation to customer service voltage. The Plattsburgh Municipal Lighting Department at its option may meter the customers transformer on the high voltage side in which case the customer will be credited in both demand and energy billing by an amount which reflects the losses through the customer's transformer.

POWER FACTOR CORRECTION:

The Plattsburgh Municipal Lighting Department may, at its option, test or meter the power factor of a customer's load, where there is evidence of a lagging power factor less than ninety percent (90%). The Plattsburgh Municipal Lighting Department at its option, may require the customer to install power factor correcting equipment or the Department, on its system near the customer, will do so and bill the customer for the expense incurred therefor. No correction will be made or required where the power factor is leading or greater than ninety percent (90%) lagging.

TERM:

One year and thereafter until terminated by thirty days written notice.

PURCHASED POWER ADJUSTMENT:

All kilowatt-hours sold under this schedule are subject to Purchase Power Adjustment Charges in accordance with Section VII of Plattsburgh Municipal Light Department Tariff and consistent with Rule IX of the NYMPA generic tariff.
