SERVICE CLASSIFICATION NO. 4 (continued)

SPECIAL PROVISIONS: (continued)

C. (continued)

of service under this Service Classification, Customer shall provide quarterly updates of the twelve month profile of anticipated consumption of gas, on the same basis, not less than thirty days prior to the beginning of each succeeding quarter. For purposes of administration of this provision the Company may increase the anticipated consumption for any month by up to the maximum positive difference between the monthly actual and anticipated consumptions of gas in the previous twelve month period.

D. Gas supplied hereunder may be interrupted at the sole discretion of the Company at any time, upon not less than two hours prior oral or written notice to the Customer, and the Customer shall thereupon discontinue his use of the Company's service as requested. The Company will endeavor to provide more than two hours notice whenever possible.

E. The Customer agrees that if he/she fails to discontinue his use of service as requested by the Company, all gas taken during such period of requested interruption in excess of the amount the Customer is permitted to take shall be billed at the stated rate in effect at the time, plus \$25.00 per Dth of unauthorized usage. The Company reserves the right, however, to terminate service under this Service Classification for failure of the Customer to discontinue use of service when requested by the Company.

F. The Company may install, at its own expense, special equipment for monitoring the customer's total gas use. Cooperation by the customer shall be required for the installation of necessary telephone lines and electrical circuits required for such monitoring.

G. During the terms of the service agreement, customer's equipment supplied with gas hereunder will not be supplied with gas purchased under another Service Classification.

H. Service is available hereunder only to Customers who maintain standby facilities (including fuel therefor) adequate to enable the customer to satisfactorily operate the facilities supplied hereunder if needed, whenever and so long as the gas supply is interrupted. The Company assumes no responsibility for the adequacy of such standby facilities and shall not be liable for any loss, damage or expense, direct or indirect, which may be incurred by the Customer or others in connection with or as a result of any interruption of gas service.
