SERVICE CLASSIFICATION NO. 9 (Cont'd)

INTERRUPTIBLE TRANSPORTATION/STANDBY SALES SERVICE (Cont'd)

SPECIAL PROVISIONS (Cont'd)

- 9.9 If the Company curtails service and the Customer is not able to meet requirements of the curtailment, the Company will charge the Customer a curtailment penalty for all gas consumed by the Customer until the Customer is able to meet the requirements of a curtailment. The curtailment penalty for gas consumed will be equal to 110% of the market price of the customer's alternate fuel in addition to the applicable tariff rates for natural gas service. The daily alternate fuel market price will be as published in Platt's Oil Gram US Market Scan or on Bloomberg's Energy Online platform. The curtailment penalty may be billed back to and including November 1 and until the point the customer complies with the tariff requirements.
- 9.10 Prior to November 15 of each year, the Company will institute an annual system curtailment. Customers will be notified by registered mail that the Company will be conducting a system curtailment. The notification letter will also request information concerning the Customer's alternate fuel supply and arrangements for deliveries during actual curtailment periods. Customers must reply to the request for information within thirty (30) days of receipt. Failure to reply will subject the Customer to the Company's curtailment penalty. In addition, if for any reason the Customer is not able to curtail usage during the annual system curtailment, the Customer will be subject to the Company's curtailment penalty, as described above, for all gas consumed by the Customer until the Customer is able to meet the requirements of a curtailment.
- 9.11 If the Customer experiences unanticipated problems when attempting to curtail usage during either an actual curtailment or the annual system curtailment, the Company, at its sole discretion, may waive the curtailment penalty for a period up to twenty-four (24) hours.
- 9.12 Customers found to be operating under this tariff without meeting the requirements of this tariff will be required to take service under Service Classification No. 2 for a period of not less than one year. If after the one year period the Customer is able to meet the requirements of this tariff they will be given the option of returning to interruptible service.
