SERVICE CLASSIFICATION NO. 20 - Continued**TRANSPORTATION RECEIPT SERVICE (TRS) - Continued****Miscellaneous Provisions - Continued****(Q) Account Separation Fee**

The Company will charge a Marketer \$34.50 to separate a combined gas and electric account into two accounts. If a Customer authorizes an ESCO for electric service and another Marketer for gas service before the Company has taken action at the request of one ESCO or Marketer to separate the combined account, the Company will charge each ESCO and Marketer one-half of the applicable charge.

(R) Consolidated Billing And Payment Processing Services

A Marketer and the Company may agree for one party to perform consolidated billing and payment processing services on behalf of the other. These billing and payment processing services to be effective, no earlier than the date on which Electronic Data Interchange ("EDI") is operational, are governed by the terms and provisions of retail access billing and payment processing practices, as specified in Appendix A of the Public Service Commission's "Order Establishing Uniform Retail Access Billing and Payment Processing Practices" issued May 18, 2001 in Case 99-M-0631 and 98-M-1343, as may be modified from time to time by the Commission and available on the Commission's website, www.dps.state.ny.us, and by such other terms and conditions not inconsistent with otherwise applicable laws, regulations, and Commission Orders as reflected in a Billing Service Agreement Form filed by the Company.

In advance of the effectiveness of the Commission's Billing and Payment Processing Practices (the "Billing UBP"), the Company may offer Consolidated Utility Billing to Marketers by agreement. When EDI standards are approved by the Commission and operational for Consolidated Billing by utilities, the Company's consolidated utility billing service will be modified to conform to the requirements of EDI and the Billing UBP.

The Company will charge a Marketer \$0.65 per account per monthly billing cycle when the Company and Marketer have executed a Billing Services Agreement for the Company to provide Consolidated Bills and payment processing services. If there is one ESCO for electric service and another Marketer for gas service, the Company will charge each ESCO and Marketer one-half of the applicable charge.

After EDI is operational, a Marketer that wants to provide Consolidated Bills must qualify under the requirements for EDI and execute a Billing Services Agreement in the form provided by the Company.
