**Service Classification No. 13**  
**Temperature-Controlled Transportation Service (continued)**

**Special Provisions (continued):**

7. Termination of Service: The Company reserves the right to terminate service to a customer if a customer:
  - a. fails, for any reason whatsoever, to interrupt service upon written or oral notice from the Company, or
  - b. suffers or allows gas to be consumed in violation of interruption provisions of this service, or
  - c. in the case of human needs customers, fails to maintain the dual-fuel equipment and associated control devices in proper working order, or
  - d. interferes in any manner with the operation of such control devices, or
  - e. interferes with or hinders in any manner, the Company's rights to access, metering and inspection, or
  - f. fails to maintain the operation of all telephone lines used in the remote reading of telemetering equipment, or
  - g. otherwise violates any provision of this service classification.
8. Additional Charges to Customers:

For gas consumed in violation of this Service Classification without the express written authorization of the Company, an additional charge of nine (9) times either (1) the sum of the Market Price for natural gas delivered to the Company's city gate on the day of violation plus the transportation rate the customer would be subject to, or (2) the applicable sales rate, whichever is higher. All charges are subject to all utility taxes and surcharges. Market Price shall be defined as the city gate delivered market price for natural gas on the days of interruption as quoted by AGas Daily@. Where a condition is experienced by the consumer which prevents the required transfer from gas, the Customer agrees to immediately notify the Company and to take immediate action to correct such condition, and to notify the Company when such condition has been corrected.

The imposition of such additional charge shall not limit any rights of the Company to terminate gas service pursuant to any provision of the Company Rate Schedule or otherwise. In the event that the Company finds that gas is being consumed in violation of this Service Classification and also finds that the interruption thereof would create a danger or threat to health or safety, the Company shall have the option not to interrupt the consumer's gas service and such consumer will be charged the additional charge for such consumption as provided herein.
