SERVICE CLASSIFICATION NO. 3 (Cont'd)

LARGE POWER PRIMARY SERVICE (Cont'd)

SPECIAL PROVISIONS (Cont'd)

3.5 POWER FOR JOBS (Cont'd)

Determination of Energy and Demand Billing (Cont'd)

4. The balance of the Customer's total registered demand and energy will be supplied and billed by the Company at the appropriate rates and charges of this Service Classification. The demand to be billed in the on-peak time period shall be the product of one minus the Power for Jobs ratio and the total demand in each of the respective time periods. The energy to be billed in the on and off peak time periods shall be the product of one minus the Power for Jobs ratio and the total kilowatt-hours in the respective billing periods.
5. For a fractional part of a billing period at the beginning or end of service under this special provision, or for fractional periods due to a withdrawal or other change in the Customer's Power for Jobs allocation, the capacity charge and portion of any applicable minimum charge and the amount of energy that will be billed to the Customer under this special provision shall each be proportionately adjusted based on the ratio of the total hours of service under this special provision to the total number of hours in the billing period.

3.6 ECONOMIC GROWTH INCENTIVE DISCOUNT

The Company has designated 75,000 kW as the maximum qualifying total load that is eligible under this discount provision, which includes all customers served under the Economic Growth Incentive Discount from Service Classification Nos. 3 and 13 (Special Provisions 3.6 and 13.5, respectively). This discount is applicable to any new S.C. No. 3 customer with demand of at least 250 kW or any existing customer with load growth of at least 250 kW of demand over their current demand who (a) is classified in Standard Industrial Classification - Major Groups 20-51 and 60-89 and (b) has an Energy Efficiency Audit performed at the earliest convenience of the customer and the Company, provided the audit is completed within the first six months of taking service under this provision. Customers will be billed for demand and energy as follows:
