LOAD AGGREGATION (continued)

Alternative Billing Arrangements (continued)

- 4. Marketer Single Bill Option:** The Marketer will render a single bill for Delivery and other special services provided by the Company under Rule 16 of this tariff and Gas Supply and any other applicable services provided by the Marketer. The Company will provide its charges to the Marketer in a Bill Ready format.

Combination Customers receiving both electric and gas services from the Company electing the Marketer Single Bill Option may receive a consolidated bill when only one Marketer is responsible for supply services. If a Combination Customer chooses the Marketer Single Bill Option but chooses to receive gas and electricity supply from two different suppliers (Company or Marketer/ESCO*s), the combination account will be separated into separate gas and electric accounts with a single bill (delivery and supply) rendered for each account. The Marketer requesting the enrollment or change in billing arrangement that initiates the separation of a combination account will be charged a fee of \$25.46 to separate the account. This fee shall cover the one-time cost of recombining the separate accounts if required in the future.

Marketer Eligibility

In order for a Marketer to offer the Marketer Single Bill Option to an eligible customer, the Marketer must meet all the following requirements, as applicable, at all times:

- a. The Marketer participates in the Company*s Supplier Select Program as set forth in this Service Classification;
- b. The Marketer meets the creditworthiness requirements of the Company as set forth in this Service Classification;
- c. Marketers providing the Marketer Single Bill Option must be Electronic Data Interchange (EDI) certified;
- d. Marketers providing the Marketer Single Bill Option are required to have successfully completed a test transaction of EDI data sets to demonstrate capability to communicate the required billing information;
