SERVICE CLASSIFICATION NO. 2 (Cont'd)

GENERAL SERVICE (Cont'd)

SPECIAL PROVISIONS (Cont'd)

2.7 CURTAILABLE ELECTRIC SERVICE (Cont'd)

- i) The Company reserves the right to discontinue availability of this Special Provision to any customer whose curtailment performance is unsatisfactory, in the sole judgement of the Company. Performance will be determined to be unsatisfactory if the customer's average level of compliance with notice of curtailment is less than 50% for two consecutive Peak Seasons in which that customer has participated in this Special Provision. The compliance level for each curtailment period shall be defined as the difference between the maximum monthly billing demand and the maximum demand within the curtailment period divided by the difference between the maximum monthly billing demand and the Firm Power Level.

The result above shall be expressed as a percentage. All maximum Kw values shall be determined on a 15 minute integrated basis.

- j) Once this Special Provision is elected, service must be taken under this Special Provision for one calendar year.

2.8 ECONOMIC REVITALIZATION DISCOUNT

Any new customer, or any existing customer with load growth of at least 100 Kw of demand over the demand at their previous location, who (a) occupies an existing facility of at least 25,000 square feet which has been vacant for at least six months, (b) is classified in Standard Industrial Classification-Major Groups 20-51 and 60-89, (c) reimburses the Company for any incremental distribution system investments required to provide service and (d) has an Energy Efficiency Audit performed during the first six months of occupancy and agrees that within eighteen months of completion of the audit to implement all practical audit recommendations which have a payback of two years or less, will be billed for demand and energy as follows:
