GENERAL INFORMATION

7. General Rules

- A. Customers must provide 10 days' written notice prior to the date on which termination of service is requested or prior to a change of occupancy, until which date the customer will be responsible for payment of service.
- B. Fire hydrants shall not be used without the written permission of the company or unless in conformance with filed fire protection tariff provisions. No person shall open or interfere or draw water from any fire hydrant without permission from the company, chiefs of the fire department, or their authorized assistants.
- C. The company will not be liable for damage resulting from the presence of its facilities, supply, or use of water service, except damage resulting from gross negligence of the company.
- D. The company may shut off water in its mains to make repairs and extensions. Where possible, proper advance notice will be made to customers affected.
- E. The use of water for sprinkling, swimming pools, or other less essential uses may be restricted or prohibited where such use may unreasonably reduce the adequacy of service for other domestic purposes.
- F. There must be a separate service for each premises.
- G. For existing services within the territorial limits of any street, avenue, road or way, the Company will maintain and renew when necessary the following equipment: corporation stop, curb stop, curb box and service pipe.
- H. Installation of service pipes and mains will not normally be made when the ground is frozen.
- I. The customer is responsible for service pipes and plumbing within the property line. Any plumbing work done on the customer's service pipe is subject to approval by the company. No underground work shall be covered up until it has been inspected and approved by the company. The portion of the service pipe outside the territorial limits of any street, avenue, road or way, as hereinbefore defined, which is installed by the customer at his expense must be approved by the Company before the trench is backfilled.
- J. All leaks on customer premises or the customer portion of the service pipe must be repaired as soon as possible.
- K. All mains, services (up to the property line) and other water system facilities will be maintained and replaced by the company.
