SERVICE CLASSIFICATION NO. 21

LARGE POWER SUBSTATION AND TRANSMISSION SERVICE - RETAIL ACCESS PROGRAM

APPLICABLE TO USE OF SERVICE FOR

Large industrial customers who would otherwise qualify for the Company's Service Classification No. 13 and who wish to purchase energy and capacity from a provider (Retail Supplier) other than Central Hudson (Similar customers who desire full service options from Central Hudson should see Service Classification No. 13).

RETAIL ACCESS PROGRAM CUSTOMER PARTICIPATION QUALIFICATIONS

In order to be eligible for the Retail Access Program, which is effective September 1, 1998, in addition to meeting the requirements set forth in the section above entitled Applicable to Use of Service For, customers must also meet the conditions set forth in General Information Section 35.A. Customers must adhere to the applicable enrollment requirements set forth in General Information Section 35.B and, if not acting as their own retail supplier subject to the requirement set forth in General Information Section 35.A, must select a Retail Supplier who has met the conditions set forth in General Information Sections 35.E and 35.F. Customers electing to take service under this service classification will be required to execute a Requirements Contract as contained herein. Customers may, at any time, choose to change Retail Suppliers or return to the Company system pursuant to the terms and conditions of General Information Section 35.C.

CHARACTER OF SERVICE

Continuous, 60 cycle, three phase alternating current delivered at one transmission voltage, voltage depending on availability and the customer's requirements.

When a customer provides all equipment necessary to take service (a) directly from a substation having a line-side voltage of 69,000 volts or higher the Substation Rate will apply and (b) at a transmission voltage of 69,000 volts or higher the Transmission Rate will apply.
