Charges for Service Supplied by Central Hudson (Cont'd)

- 3) (b)(ii) Energy Fuel Cost Charges (for energy supplied by the Company) (Cont'd)

Cost of Fuel- EVOP: The Cost of Fuel for EVOP customers, excluding nuclear and hydro energy, shall be the Cost of Fuel, as defined in General Information Section 29, less the fuel costs associated with the hydro and nuclear plants used by the Company in generation for its customers.

Average Cost of Fuel - EVOP: The Average Cost of Fuel for EVOP customers each month shall be the Cost of Fuel - EVOP, defined above, divided by the following: the generation level used in the calculation of the Average Cost of Fuel, as defined in General Information Section 29, less generation associated with the hydro and nuclear plants used by the Company in generation for its customers.

Average Cost of Nuclear and Hydro Generation - EVOP: For EVOP customers, the rate to be charged for customers' nuclear/hydro energy allocation shall be the fuel costs associated with nuclear and hydro generation divided by the generation from those facilities.

Adjusted Average Cost of Fuel - EVOP: The adjusted average cost of fuel, as defined in General Information Section 29, shall be further adjusted for purposes of establishing a billing rate for energy sold to EVOP customers from the Company's own use generation. The adjusted average cost of fuel shall contain an additional adjustment to exclude generation and costs associated with low cost hydro and nuclear fuel, resulting in the Adjusted Average Cost of Fuel - EVOP.
