SERVICE CLASSIFICATION NO. 14 (Cont'd)

STANDBY SERVICE (Cont'd)

power to the Customer when electrical power is not available from the Company and 3)no load is served by the emergency generator while electric service is available for the Company to the premises, except for regularly scheduled tests when the generator is required to operate under load.

The Customer shall maintain an operating log for each emergency generator indicating the date, time, hours and purpose of each operation of each such facility. The log shall be made available to the Company upon request. Failure to do so shall permit the Company to bill the Customer under this Service Classification for the amount of electric standby service which the Company can reasonably estimate was supplied to the Customer during times when electric service was available from the Company.

CHARACTER OF SERVICE

Continuous, 60 cycle single or three phase alternating current delivered at one secondary or primary distribution voltage or transmission voltage, phase and voltage depending on availability and the Customer's requirements.

Issued by: Arthur R. Upright, Senior Vice President, Poughkeepsie, New York
