SERVICE CLASSIFICATION RIDER NO. 3 - 1

INTERRUPTIBLE SERVICE CREDIT PROGRAM

The Salamanca Board of Public Utilities (BPU) offers to its Service Classification No. 3 customers, the opportunity to voluntarily participate in the Interruptible Service Credit Program. The program is designed to offer a rebate/credit to participating customers in proportion to the BPU's realized incremental power cost savings associated with lower BPU Municipal Utility System peak power demands. The program will be implemented in accordance with the following provisions:

- (1) Each participating customer shall enter into a written contractual agreement with the BPU. This agreement to participate will be an integral part of the tariff rider.
- (2) A program participant must give a minimum commitment for interruptible/curtailable load of 50 kW in each month.
- (3) The BPU is solely responsible for determining the need for load curtailment requests.
- (4) The credit amount will be \$9.25 per interrupted KW per month for primary metered customers and \$9.40 per interrupted KW per month for secondary metered customers.
- (5) A program participation fee of \$460 per month will be charged in each month that a request for load interruption is made.

Issued by: James Brundage, General Manager of the Board of Public Utilities
