SERVICE OF CLASSIFICATION NO. 3 (CONT'D)
COMMERCIAL WITH DEMAND
(LARGE COMMERCIAL)

B. In case service is terminated and is resumed by the customer at the same location within the same billing period, service will be billed for the entire billing period without giving effect to temporary suspension.

SPECIAL PROVISIONS:

A. When the customer purchases energy at primary voltage, a discount amounting to 3% of the net bill will be allowed. When, in addition, the customer furnishes and maintains the necessary substation for purchasing energy at primary voltage this discount will be 5% of the net bill.

B. Customers taking service for the operation of welders, x-ray machines or any other equipment having a highly fluctuation or large instantaneous demand which causes undue voltage disturbance upon the circuit from which service is taken thereby interfering with the service to others or failing to do so, shall pay in addition to the charge for service, 50 cents per month, per kva of the name-plate rating of such equipment.

C. The customer agrees that during the first year of service, the demand upon which the demand charge is based will not be less than 50% of that which the consumer has requested the village to be ready to supply, and thereafter the demand charge will not be less than 50% of the maximum during the preceding eleven months.

PURCHASED POWER ADJUSTMENT:

The changes set forth in this service classification shall be subject to a purchased power adjustment as explained in the NYMPA generic tariff.
