SERVICE CLASSIFICATION NO. 3 (CONT'D)  
General Service - Demand Metered

DETERMINATION OF DEMAND:

The demand will be determined by meter when service is supplied based on any one of the following criteria:

- a) When an individual customer requires a transformer capacity of 5 kVA or more; or
- b) When the total connected load is equivalent to 15 kW or more; or
- c) When the customer's consumption has exceeded 2,000 kilowatt-hours in each of two consecutive months; or
- d) When it is estimated that a new customer's consumption will exceed 2,000 kilowatt-hours per month in future billing periods.

The demand shall be the greatest of the following:

- a) The maximum fifteen-minute integrated kilowatt demand, determined by meter, occurring during the month for which charge is made.
- b) Seventy-five percent (75%) of the highest maximum demand which shall have occurred during the preceding twelve months.
- c) One Kilowatt.

TERM:

- A. Single-phase Service - Three months and thereafter until terminated by three days written notice.
- B. Three-phase Service - One year and thereafter until terminated by three days written notice.
