Cancelled by 1 Rev. Leaf No. 175 Effective 10/01/1998

RECEIVED: 06/01/98 STATUS: Cancelled EFFECTIVE: 10/01/98

**SERVICE CLASSIFICATION NO. 5A - Continued****Character of Service**

For service to a delivery point within the Company's service territory, the Company will provide gas to the customer that contains not less than 975 Btu, on a dry basis, per cubic foot at a pressure of not less than four inches of water column gauge, as measured at the customer's end of the service line. For service to a delivery point outside the Company's service territory under Rate Schedule 2, the Company will provide gas of a quality and at a pressure and heat value content conforming to either the Company's specifications or the specifications of the Company's pipeline transporter.

Service under Rate Schedule 1 is interruptible. Service under Rate Schedule 2 may either be firm or interruptible. Interruptible service will be interrupted at the option of the Company after not less than two hours' notice (by telephone or otherwise) to the customer. Upon receipt of such notice, the customer shall curtail or discontinue use of gas as instructed by the Company (see Special Provisions). Specific conditions of interruption, if any, will be set forth in the customer's service agreement.

**Rate Schedule 1:**

No later than three days prior to the end of each month, the Company will file with the Public Service Commission a rate to become effective on the first day of the following month, for customers taking standard offer price service under this service classification. The rate charged shall not be less than the incremental cost of gas on file with the Commission. The Company reserves the right to revise the posted price in any given month on one day's notice to the customer (which may be by telephone, telegraph or other means of providing notice) to reflect changes in gas costs and other market conditions, such as the availability and price of pipeline transportation, alternate fuels, etc. In no event shall the rate charged be greater than the rate charged for the terminal block and the applicable Monthly Cost of Gas for Service Classification No. 2. All deliveries under this Rate Schedule will be made at the meter of the customer's facilities in the service territory.
