Rates for each service classification are different because the cost to provide service is different. You, the customer, qualify for a service classification if you meet the eligibility conditions of that classification. Further, "Brooklyn Union" will endeavor to assist in the selection of your most favorable rate classification.

If served by multiple rate classification at the same location, you will not be permitted switchable circuits (electric) nor switchable thermal requirements (gas) between the multiple classification.

To insure proper billing, you must notify "Brooklyn Union" in writing if use of service or equipment changes in the future.
