Service Classification No. 11
Uncompressed Natural Gas Vehicle Transportation Service
(Rate Code: 802)

Applicable To Use of Service for:

Transportation of customer-owned gas to a natural gas refueling station located within the Company's service territory and supplied from a Company high pressure distribution main is available under this Service Classification to: (i) a single Customer with a single facility or meter, that can demonstrate annual natural gas consumption of at least 3,500 DTHM at the single meter; (ii) a group of Customers that can demonstrate annual natural gas consumption of at least 5,000 DTHM; (iii) a single firm with facilities at more than one location or having more than one meter that can demonstrate annual natural gas consumption of at least 3,500 DTHM at a single meter; and (iv) a single firm with facilities at more than one location or having more than one meter that can demonstrate annual natural gas consumption of at least 5,000 DTHM.

The gas to be transported under this Service Classification will be transported from the Receipt Point to the Delivery Point. The Company shall control dispatch of such gas, and dispatch will be provided upon receipt of an Application for Transportation Service. All gas transported under this Service Classification must be consumed as motor fuel.

Character of Service:

Transportation of natural gas, or any suitable mixture of natural and manufactured gas, of a BTU content not less than 950 BTU per cubic foot (dry basis) on a monthly average, supplied from a distribution main with a maximum allowable operating pressure greater than or equal to 30 psi.

Definitions:

For the purpose of this Service Classification, the following terms are defined below:

- a) Annual Transportation Quantity means the quantity of gas per year for which transportation service is requested in the Customer's application for service hereunder. Such quantity shall include an amount to be retained by the Company as an allowance for losses incurred in the process of transportation and delivery.
- b) Average Daily Transportation Quantity means 1/365 of the Annual Transportation Quantity.
- c) Maximum Daily Transportation Quantity means 150% of the Average Daily Transportation Quantity.
- d) Daily Transportation Quantity means the quantity of gas tendered at the Receipt Point for the Customer's account on any day.
- e) Daily Delivery Quantity means Daily Transportation Quantity minus the amount to be retained by the Company as an allowance for losses.
- f) Receipt Point means the intersection of an interstate natural gas pipeline company facilities and the Company's owned or controlled facilities.
- g) Delivery Point means a natural gas refueling station located within the Company's service territory.
