SERVICE CLASSIFICATION No. 6M - Continued

Term:

Unless otherwise reflected in an individually negotiated service agreement under Rate Schedule 3, service under this Service Classification shall be for a period of one year from the date of commencement of service and thereafter until terminated by either party. Terminable by either party after one year from the commencement of service on six months' written notice to the other, or terminable in the manner provided by law and the rules and regulations set forth in the Company's Rate Schedule, on file with the Public Service Commission.

Special Provisions:

a.   Gas Service will be supplied under this Service Classification only when and to the extent that the Company has capacity available at the time of application sufficient for the service requested and the Company, after supplying consumers taking continuous service, will have sufficient gas available to supply the applicant.

         The Company reserves the right to accept only such applications under this Service Classification as will, in the Company's sole judgment, permit it to dispose of the gas it has available for sale without requiring an unreasonable or uneconomic extension of facilities.

b.   It is understood and agreed that as a condition of service hereunder consumers shall be required to transfer their fuel supply from gas to an alternate fuel source whenever the outside temperature falls below the temperature specified by the Company.

         Unless otherwise expressly authorized by the Company in writing, the "alternate fuel" hereunder shall be No. 2 fuel oil.
