SERVICE CLASSIFICATION No. 11 - Continued

Special Provisions:

- (a) In no event shall the Company be obligated to incur any costs for additional facilities necessary to provide transportation services hereunder. Nonetheless, in the event the Company elects to incur such costs, the costs of any additional facilities, including but not limited to any necessary telemetering equipment, that in the Company's sole judgment are required or must be incurred by the Company to provide transportation service, shall be the sole responsibility of the consumer, and shall be payable in full prior to the initiation of service hereunder or in the case of TS-5N, shall be fully recovered on an annualized basis in the rate for the life of the contract.
- (b) Prior to the initiation of service, the consumer shall provide the Company, for its review and approval, copies of all contracts between the consumer and third parties providing for the purchase of gas by such consumer and the transportation of such purchased gas to the Company's facilities for the consumer's account under this Service Classification. All such contracts shall assure, in a manner satisfactory to the Company, reliable deliveries of sufficient quantities of gas for the consumer's account to meet the consumer's full hourly, daily or seasonal requirements for the term of service hereunder, unless otherwise agreed to in writing by the Company. Such contracts shall provide assurances to the Company's satisfaction that the arrangements for gas to be delivered to the Company for the consumer's account will not interfere with or cause interruptions to pipeline supplier deliveries of the Company's general system supply. Such contracts must provide that any amendments thereto be approved in writing by the Company prior to becoming effective.
