 EFFECTIVE under authority of PSC 98-E-0535 made 04/29/98
 Cancelled by 1 Rev. Leaf No. 9 Effective 10/01/2001
 RECEIVED: 04/03/98 STATUS: Cancelled EFFECTIVE: 05/01/98
 SERVICE CLASSIFICATION NO. 3 (CONT'D)

SPECIAL PROVISIONS:

Customers electing to combine single phase and three phase service for metering purposes, must install the necessary transformer on the load side of-the three phase me-ter, maintaining proper phase balance.

PURCHASED POWER ADJUSTMENT:

The charges set forth in this service classification shall be subject to a purchased power adjustment as explained in the NYMPA generic tariff.

The charges billed under this section shall be subject to the late payment rate.

DETERMINATION OF DEMAND:

A. A demand meter shall be installed and the large commercial rate shall apply whenever a customer's energy use exceeds 3500 kWh in any winter month (November through April billing periods).

The demand meter shall remain and the large commercial rate shall apply until such time as the energy usage and demand falls below 3500 kWh and 10 Kw, respectively, for twelve (12) consecutive months, which requirement may not be avoided by temporarily terminating service.

B. The demand shall be the maximum integrated 15 minute kilowatt demand. For billing purposes, the demand shall be the greater of the following:

1. The maximum demand occurring during the month, or
2. Fifty percent (50%) of the highest demand occurring during any of the preceding eleven months.

TERMS AND CONDITIONS:

The customer will be responsible for any use of service until two (2) days after written notice to discontinue service has been received by the Commission.

All customers receiving three phase service shall maintain a power factor equivalent to the minimum power facter requirement established by the New York Power Authority in the power contract agreement between the Municipal and the New York Power Authority.
