SERVICE CLASSIFICATION No. 19

SUPPLIER TRANSPORTATION, BALANCING AND AGGREGATION

APPLICABLE TO USE FOR:

Service hereunder is available to any party (hereinafter called the Supplier) which (1) with the consent and appointment of the relevant transportation Customer and/or Customers ("STBA Customer(s)") agrees to assume the primary responsibility for all transportation service obligations for the designated STBA Customers, (2) meets the requirements for creditworthiness as established by the Company, and (3) has entered into a STBA Service Agreement with the Company. STBA Customers are limited to a single STBA Agreement.

CHARACTER OF SERVICE:

Transportation aggregation and balancing service billed to Supplier. The Supplier assumes all obligations of its STBA Customers for all unbundled services rendered to the STBA Customer by the Company including, but not limited to, transportation, balancing, capacity release, and standby. The Company will bill the Supplier for services rendered by the Company to the Supplier's STBA Customers. Absent default and failure of security by the Supplier, the STBA Customers shall not be responsible to the Company for the cost of such services.

SPECIAL PROVISIONS:

1. Transportation Service

The Company will provide transportation and balancing services to facilitate the redelivery of gas supplies from the City Gate to the STBA Customer(s). The Supplier shall be billed the sum of the charges for the transportation services rendered for each of its STBA Customers at the appropriate transportation rate for which each STBA Customer qualifies. A STBA Service Agreement may aggregate only like transportation services (i.e. a STBA Service Agreement may not aggregate a mix of monthly and daily metered transportation Customers).

2. Upstream Capacity Allocation Requirement Options

The Supplier must obtain upstream capacity through one of the following mutually exclusive upstream capacity allocation methods.

a. Upstream Pipeline Transmission Capacity Allocation Only

(1) Determination of Allocated Upstream Pipeline Transmission Capacity

Capacity allocated to Customers within the STBA Group and assigned to the Supplier pursuant to the Upstream Capacity Requirements Section of Service Classification No. 13M.
