 SERVICE CLASSIFICATION 4 (AREA LIGHTING) (CONT'D)

PURCHASED POWER ADJUSTMENT:

The charges set forth in this service classification shall be subject to a purchased power adjustment as explained in the NYMPA generic tariff.

SPECIAL PROVISIONS:

- A. The Commission shall furnish, install, own, operate, and maintain an enclosed photo-electrically controlled luminaires complete with a bracket of not less than thirty (30) inches in length, ballast, and lamp at the wattage designated under the desired rate charge. The Commission shall also provide a cable service span of one hundred (100) feet which shall be connected on the line side of the customer's meter. Where the service span exceeds one hundred feet, the customer shall pay for the additional cable used.
- B. The lighting unit shall be installed only upon private property owned or leased by the customer. The customer shall furnish the necessary pole or other support, except as hereinafter provided. The Commission reserves the right to require a mounting height which will provide proper light distribution from the unit. Where a pole is appropriately located on the premises, the Commission will waive the requirement that the support be furnished by the customer and shall install the unit on its own pole.
- C. Upon request of the customer, the Commission will change the location of the lighting unit, providing that a proper support is furnished and the customer agrees to pay the Commission for the cost incurred in making the change.
- D. Lighting service will be provided every night and all night during the period covering approximately the hours between thirty (30) minutes after sunset and thirty (30) minutes before sunrise, aggregating about 4,200 hours per year, unless prevented by accidents or other causes beyond the control of the Commission.
