Cancelled by 1 Rev. Leaf No. 9 Effective 02/01/2001
RECEIVED: 04/14/98 STATUS: Cancelled EFFECTIVE: 05/01/98
SERVICE CLASSIFICATION No. 3 (Continued)

Remittance mailed on the "last day to pay" date will be accepted without the late charge, the postmark to be conclusive evidence of the date of mailing. The failure by the customer to receive the bill shall not entitle him/her to pay without the late payment charge after the "last day to pay" date.

PURCHASED POWER ADJUSTMENT

The charges set forth in this service classification shall be subject to a purchased power adjustment as explained in the NYMPA generic tariff.

The charges billed under this section shall be subject to the late payment rate.

DETERMINATION OF DEMAND

The demand shall be determined by a demand meter of standard type, furnished and maintained by the Company. Such demand shall be the maximum 15 minute integrated demand during the month. The demand, as determined, shall be taken to the nearest one-half kilowatt. For billing purposes, the monthly demand shall be the recorded demand or 50% of the maximum recorded demand established during the preceding 12 months, which ever is greater, but not less than 20 KW.

SPECIAL PROVISIONS

When the installation includes welders, X-rays, or other apparatus having a highly fluctuating or large instantaneous demand, the customer shall provide batteries, rotating equipment or other corrective equipment to reduce the inrush current to an amount acceptable to the Company.

Whenever the demand has exceeded 75 KW in each of three consecutive monthly billing periods, the customer will be transferred to Service Classification No. 4 as of the following billing period.
