GENERAL INFORMATION

2. RULES RELATING TO THE INSTALLATION OF MAINS, SERVICES, EXTENSIONS, ETC.: (CONT'D)

F. Non-Residential Applicant: (Cont'd)

- (1) the material and installation costs relating to:
 - (a) up to 100 feet of main and appurtenant facilities; and
 - (b) the service line located within the public right-of-way plus a portion of service beyond the public right-of-way equal to the greater of 100 feet or footage equivalent to seventy percent (70%) of the estimated annual revenue. The cost will be determined as defined in Section 13 of this Schedule.

G. Dual-fueled non-residential customers and interruptible customers:

The Company will provide facilities to serve these customers on a cost justified basis.

H. Charges for Additional Facilities:

- (1) If, in order to provide service to an applicant, the Company must install mains and appurtenant facilities in addition to those required to be provided without charge, the Company will impose a surcharge subject to the following provisions.
 - (a) The surcharge relating to mains and appurtenant facilities including return, depreciation, taxes and maintenance will not exceed twenty percent (20%) per year of the actual reasonable cost of such facilities that exceeds the portion which the Company is required to install without charge to an applicant, if the Company lays a main of 4 inches or less in nominal diameter (in the case of low pressure distribution) or of 2 inches or less in nominal diameter (in the case of high pressure distribution). If the Company lays a main greater than 4 inches or less in nominal diameter (in the case of low pressure distribution) or greater than 2 inches in nominal diameter (in the case of high pressure distribution), the surcharge shall not exceed twenty percent (20%) per year of the estimated reasonable cost of a 4 inches main (in the case of low pressure distribution) or a 2 inch main (in the case of high pressure distribution) unless the estimated consumption of the proposed customer(s) requires the installation of a larger-sized main, in which event the surcharge shall not exceed twenty percent (20%) per year of the actual reasonable cost of such main. The surcharge shall commence when gas service is first available to an applicant and shall be paid ratably for each billing period.
