SERVICE CLASSIFICATION NO. 3 (CONT'D)  
INDUSTRIAL

A monthly late payment charge will be assessed at a rate of one and one-half percent (1½%) per month on a customer's unpaid balance, including service billing arrears and unpaid late payment charge. Remittance mailed on the "last day to pay" date will be accepted without the late payment charge, the postmark to be conclusive evidence of the date of mailing. The failure on the part of the customer to receive the bill shall not entitle him/her to pay without the late payment charge after the "last day to pay" date.

#### T E R M

One year from commencement of service and thereafter until terminated by 30 days' notice by either party provided that a customer is not subject to certain provisions under Rule (V) of the NYMPA generic tariff.

#### SPECIAL PROVISIONS:

- (a) Standby or breakdown service will be furnished under this classification to a customer part of all of whose source of energy, whether electrically or mechanically produced shall be introduced or permitted, directly or indirectly, in connection with the operation of customer's equipment. For such service the monthly demand shall be taken at not less than seventy-five percent of highest measured demand determined in any of the preceding 12 months.
- (b) Customer, in taking three-phase electric energy, shall maintain as nearly as is reasonably possible, equal currents in each of the three-phase conductors at the point of taking. If at any time the current in any phase conductor shall exceed the average of the currents in all the three-phase conductors by more than five percent (5%), the amount to be paid by customer for the period within which the unbalance occurred may be increased by a percentage equal to that of the unbalance.

#### PURCHASED POWER ADJUSTMENT:

The charges set forth in this service classification shall be subject to a purchased power adjustment as explained in the NYMPA generic tariff. The charges billed under this section shall be subject to the late payment charge.
