GENERAL INFORMATION

11. SERVICE LINES: (continued)

11.2 The Company shall, at Company expense, construct the minimum length of service line as allowed, in Rule 10.1, necessary to serve the customer as outlined in Rule 11.1.

11.3 The Company shall, at the expense of the property owner or applicant, construct that portion of the service line, which exceeds the portion that would be constructed by the Company at no charge, as defined in Rule 10.1. Charges to the property owner or applicant for the excess portion of service line shall be the reasonable cost to the Company.

11.3.1 Whenever the Company must construct that portion of the service line which exceeds the allowances provided in Rule 10.1, the costs to the customer of the excess portion will be reduced by the adjusted gas revenues not used in the justification of a main extension. This provision is not applicable to residential non-heating customers.

11.3.2 Whenever the property owner or applicant and the Company agree to locate the meter at other than the point designated by the Company, the Company will construct the service line and the property owner or applicant will be responsible for the costs of construction beyond the designated meter location. The costs for this segment of service line will not be reduced by any adjusted gas revenues.

11.3.3 Whenever the property owner or applicant wants the service line to enter the building foundation wall below grade at a point other than that designated by the Company, the property owner or applicant will be responsible for constructing the segment of service line beyond the outlet of the meter. The Company will inspect and verify that the work has been completed in accordance with accepted industry practices.

11.4 Whenever, at the request of a property owner or occupant, a service line is provided through which gas deliveries are not immediately taken, said property owner or applicant shall bear the entire reasonable expense of providing, placing and constructing such service line. These monies will be returned as provided in Rule 11.6.

11.5 If a customer requested gas service and has not taken such service within 90 days of the date the gas service was available or the date on which the customer requested the service to commence, whichever is later, said Customer shall bear the entire reasonable cost of providing, placing and constructing such service line. These monies will be returned as provided in Rule 11.6.
