## GENERAL INFORMATION

24. Economic Revitalization Incentive Rider for S.C. 3 Large General Service, S. C. 5 Firm Transportation Service or S.C. 8 Transportation Service With Standby Sales Service (continued)
- 24.8 The applicant must agree to submit to a comprehensive energy audit at the facilities which may be eligible for the discount. The applicant will be required to address in his revitalization plan the suggested improvements indicated in the audit's results.
- 24.9 All information presented by the applicant in his revitalization plan will be held in strictest confidence by the Company.
- 24.10 A qualified applicant will receive reductions to his monthly service bills by the discounts per term stated in Rule 24.3.
- 24.11 Provided the applicant continues to be eligible, the incentive rate reduction in effect at the time of qualification as stated in Rule 24.3 will be applied, without modification, to the applicant's bill for the five year discount period, after which time the customer will no longer be qualified for the Economic Revitalization Incentive Rider.
- 24.12 If during an annual review it is determined that a qualifying applicant's revitalization plan has been successful in a shorter period of time than originally intended and the incentive discount is no longer required by the applicant, the Company reserves the right to cancel any future rate reductions. The Company will report to the Public Service Commission and the Department of Commerce the cases where the Company has canceled any future rate reduction.
- 24.13 After the initial twelve months of the Economic Revitalization Incentive Rider, the Company will begin a review of the program to determine whether the program has been successful and warrants continuation. The review of the program will be completed by the Company within a three month period and its findings reported to the Public Service Commission and the Department of Commerce. The Public Service Commission and the Department of Commerce will have three months to comment on the Company's findings. During the review period new applicants will be accepted on the Rider. Customers currently served by the Rider will continue receiving their applicable discounts during the review period. If the findings of the review indicates cancellation of the Rider, the Company will honor the remaining incentive discount periods for customers currently served on the Rider.
