##### H. Reconnection of Service: (Cont'd)

- (c) terminated for two (2) or more independent reasons and has satisfied all conditions for reconnection. The reconnection will be accomplished within the time period applicable to the last condition satisfied; or
  - (d) at the direction of the PSC or its designee, which direction may occur only where the termination was in error, or the Customer has filed a complaint with the PSC and has either paid in full the undisputed amount, or has entered into a DPA and has paid the required downpayment.
- (4) The Company may make a charge for reconnection where it has become necessary to terminate the service for non-payment of bills or any other infringement of the Company's rules governing service.

Payment may be required in advance for non-residential customers. Residential customers may pay the re-connection fee in advance or have it included as part of the re-payment plan.

The charge for re-connection will be dependent upon the time of day the Customer requires re-connection to be made. If both the Customer's electric and gas services are re-connected at the same time, the re-connection charge will be made for only one (1) service.

Re-connection charges will be as follows:

Re-connection DURING normal working hours	\$15.00
Re-connection AFTER normal working hours	\$40.00
