GENERAL INFORMATION

10. CONDITIONS OF GAS SERVICE: (CONT'D)

C. Customers Purchasing Non-Utility Supplies Other Than Residential and Human-Needs Customers:

As a condition of transportation service, each non-utility supplier must file a curtailment plan with the Company. Curtailment plans must contain enough detail to allow the Company to implement the filed plan.

In the event a long-term curtailment is invoked, the Company shall have the right to terminate service or reduce deliveries to customers in accordance with their curtailment plan.

D. Unauthorized Overrun Penalty:

Customers who, during a designated period of curtailment hereafter take quantities in excess of their base level of usage shall pay a penalty for such excess, in addition to all other prices and charges payable by said customer, of \$25.00 per Dth. The Company shall establish the base level of usage by averaging the Customer's weather-normalized usage for the previous three (3) years or less for newer customers.

In the event additional supplies are made available, the Company shall have the right, without obligation, to waive any penalty charges incurred under this section.

The payment of a penalty for unauthorized overrun shall not under any circumstances be considered as giving any customer the right to exceed established allotments, nor shall such payment be considered as a substitute for any other remedies available to the Company against the offending customer for failure to respect its obligation to adhere to the provisions of the Company's filed tariff.

E. Transfer of Gas Quantities:

A residential, commercial or industrial property owner may not transfer quantities from one property, owned by him, to another property, also owned by him, except that commercial or industrial process quantities may be transferred within the plant or plants of the same customer provided that such transfer be of limited duration for the purpose of off-setting curtailment. Quantities and load profiles transferred must be approximately the same or less and the Customer must bear the full cost of such transfer.
