SERVICE CLASSIFICATION NO. 20 (Continued)

3.
 - A. If Customer is requesting service to a proposed electric generation facility, the Company shall advise Customer, within 45 calendar days of the receipt of a completed and executed service application, of (i) the estimated costs of measuring, regulation and communications equipment, gas main extension and system reinforcements, including service pipes and service connections, and other facilities necessary to provide the requested service ("necessary Facility") and (ii) the estimated time required to perform such work.
 - B. If Customer accepts the Company's estimates of costs and time for the Necessary Facilities, the Company will tender to Customer, within 14 days of Customer's acceptance of such estimates, a gas transportation agreement reflecting the terms of service elected by Customer (e.g., nature of service (firm, interruptible), maximum daily quantity).
 - C. If Customer disputes either (i) the Company's estimates of costs of time for the Necessary Facilities, or (ii) any term(s) or condition(s) of the proposed gas transportation agreement, the Company and Customer will negotiate in good faith to expeditiously resolve the dispute on an informal basis. If the Company and Customer cannot resolve the dispute informally, either may, at any time, implement the dispute resolution procedure set forth in Section II of this procedure.
4. Service will commence on the later of:
 - A. The commencement date set forth in the gas transportation agreement,
 - B. The satisfaction of any conditions precedent in the gas transportation agreement, including, to the extent applicable, receipt of payment for any Necessary Facilities and approval of Customer's credit and/or receipt of any required deposit, and
 - C. For a new facility, the date on which any Necessary Facilities are ready for service.

Issued by Steven L. Zelkowitz, Sr. Vice President and General Counsel, Brooklyn, NY
