GENERAL INFORMATION

2. RULES RELATING TO THE INSTALLATION OF MAINS, SERVICES, EXTENSIONS, ETC.: (CONT'D)

H. Charges for Additional Facilities: (Cont'd)

- (g) In lieu of a surcharge, the applicant, upon mutual agreement with the Company, may provide a cash contribution or other equitable arrangement equal to the cost of the main extension in excess of 100 feet distance (per applicant) from the end of the nearest main appropriate to the service requested.
 - (i) whenever more than one (1) customer is initially connected to the extension, the cash contribution shall be reasonably allocated to the several customers served from the extension.
 - (ii) should additional customers be connected to said main extension during the initial ten year period from the date placed in service, a pro rata refund will be made for the cost of that additional portion of main extension which the Company would have allowed without charge or surcharge.
- (h) Upon mutual agreement of both Company and applicant, an applicant may provide a guarantee of performance, in lieu of the contribution required in Section 2.H.(1)(g) of this Schedule.
- (2) If, in order to provide service to an applicant, the Company must install service lines, service connections and appurtenant facilities in addition to those required to be provided without charge, the Company may impose a charge for material and installation costs under the following provisions:
 - (a) Customers whose service diameter does not exceed 2 inches will be charged \$5.00 per foot for the incremental length of service installed. This charge will be reviewed annually and any changes will be filed with the PSC by February 1. The revised charge will be based on the weighted average cost per foot of incremental services installed during the previous year, twelve months ended September 30. If the estimated cost of installation is greater than two (2) times the applicable flat fee or less than or equal to one-half (1/2) the applicable flat fee, the Customer shall be charged for the actual incremental material and installation costs as set forth in Section 13 of this Schedule.
 - (b) Customers whose service diameter exceeds 2 inches shall be charged material and installation costs as set forth in Section 13 of this Schedule.
