GENERAL INFORMATION (Cont'd)

II.   6.b.   CONTINUED

(3)   Material at the manufacturers' list price or in the event no such list prices are available at Company's storeroom cost plus a charge at the Company's current rate for handling, supervision, office costs, engineering, administration and inspection (municipal and/or sales taxes to be added where applicable);

(4)   In each instance the minimum charge for labor and transportation will be one-half hour at applicable rate.

c.   The Company shall charge a flat rate of $41.40 (excluding sales tax) when it cleans, lights or makes minor adjustments to customer owned equipment or facilities at the request of a customer.

7.   <u>METERS AND REGULATORS</u>

a.   Ownership

All gas delivered to customers shall be measured by meters to be furnished, installed and owned by the Company. The meter or meters will be installed on the customer's side of the point of supply and shall remain the property of the Company. If regulators are required they shall be furnished, installed and owned by the Company. The customer shall furnish sufficient and proper space for the installation of the meter and regulators.

b.   Automated Meter Reading Devices

The Company in its sole discretion, may install, together with its meter, an automated meter reading device ("AMR"), which can communicate automatically data from the meter to the Company by use of the telephone system. Customers shall provide the Company a suitable location for installation of an AMR, and the customer shall permit the Company to connect the AMR to the customer's
