STAMPS: Issued in compliance with order in Case 00-G-0996 dated 8/24/00  
Cancelled by 2 Rev. Leaf No. 172 Effective 10/01/2000  
RECEIVED: 09/05/00 STATUS: Cancelled EFFECTIVE: 10/01/00

**Service Classification No. 12**  
**Temperature-Controlled Service - Non-Residential (continued)**  
**(Rate Codes: 330, 331, 332)**

**Special Provisions (continued):**

2. Temperature Related Interruptions: Service to customers will be interrupted when the temperature drops below the temperature level specified by the Company. Temperature settings of the control devices, whether automatic or semi-automatic, will be established solely by the Company. For purposes of this service classification, the temperature is:
  - a. measured outside the customer's premises, except when such information is not readily or accurately available, or if operation or supply conditions warrant, then 1) the Company will use the temperature measured at the Company's weather monitoring station located at Hicksville, New York.
3. Standby Fuel Requirements: Customers with human needs, such as multiple dwellings and hospitals, are required:
  - a. to install and maintain at all times a sufficient standby alternate fuel supply and the dual-fuel equipment necessary to utilize same in the event of an interruption, and
  - b. unless otherwise expressly authorized by the Company in writing, must have provable storage capacity and alternate fuel on hand to withstand interruptions of service for at least ten days. If Customer lacks sufficient storage to hold ten days of supply, Customer must enter the heating season with filled tanks and arrangement providing for replenishment of storage tanks such that the initial storage plus the replenishment equals the required storage inventory.
    - 1) The installation and subsequent operation of such dual-fuel equipment and all associated control devices shall be subject to the approval of the Company.

Whenever the Company becomes aware that the Consumer's equipment is incapable of switching over to an alternate fuel and/or that the Consumer does not have an adequate supply of fuel on hand (at times other than a Company called interruption), the Company shall notify the Consumer that the violation must be corrected within ten (10) business days. It shall be the responsibility of the Consumer to contact the Company and provide proof that the violation has been corrected.

Customers who have not supplied the Company with such proof shall be subject to a variable rate equal to the greater of 110% of the No. 2 oil gas equivalent price (as published in the Journal of Commerce) or 110% of their otherwise applicable variable sales rate, whichever is higher. Such variable rate shall be in lieu of their otherwise applicable variable rate and shall be effective as of November 1st, through the earlier of March 31st or the date the customer provides the Company with satisfactory proof that the violation has been corrected, and is subject to all applicable utility taxes and surcharges. Consumers subject to this higher variable rate continue to be subject to the terms and conditions of this service classification, including an additional charge for gas consumed in violation of this Service Classification without the express written authorization of the Company.

Issued by Robert J. Fani, Senior Vice President, Hicksville, NY
