- (2) Power Generation Customers with inadequate alternate fuel or energy reserves who fail to interrupt gas service at any time during the first ten days of interruption in any winter season will be billed for the difference between (a) 130% of the higher of the alternate fuel prices, as determined in accordance with the Sales and Transportation Operating Procedures, or the Power Generation Gas Price, and (b) the Power Generation Gas Price. The charge shall be applied to all gas consumed during the billing period in which there is non-compliance with the interruption and for any subsequent billing periods during which non-compliance continues. Any Power Generation Customer with inadequate alternate fuel or energy reserves or inventory as of November 1 of each year will similarly be subject to the above charges.
- (3) Customers with inoperable dual-fuel facilities, including associated Customer installed phone lines, will be entitled to a ten day grace period to correct the condition, after which time they will be billed for the difference between:

 - (b) the applicable Interruptible or Off-Peak Firm sales rate.

If a Customer uses gas during two or more interruption periods in any heating season (November 1 - March 31), the Company shall have the right to transfer that Customer to firm service and preclude the Customer from returning to Interruptible or Off-Peak Firm service for a twelve-month period commencing with the billing month following the month in which the second or subsequent violation occurs.

In addition to all other remedies available to the Company, the Company reserves the right to discontinue service immediately, temporarily or permanently, to the Customer or to the premises where there is a violation or any failure to comply with any of the provisions of this Service Classification, the Company's Sales and Transportation Operating Procedures, or this Rate Schedule.
