Leaf: 44  
Revision: 4  
Superseding Revision: 3

### GENERAL INFORMATION - Continued

#### 7. Service Classification Riders (Available on Request)

##### RIDER A

#### AGREEMENT AND PREPAYMENT, AS MAY BE REQUIRED, FOR EXTENSION OR REINFORCEMENT OF MAINS (Applicable to Service Classification Nos. 1, 2, 3, and 4)

This agreement covers the extension or reinforcement of the Company's mains required to serve the Customer's premises, as set forth under General Rule 3.1.5. The Customer hereby agrees to pay to the Company, before the work is begun, the sum of \$\_\_\_\_\_ to cover the estimated cost of such main extension or reinforcement in excess of the estimated five-year revenue from the Customer connected to such main. Alternatively, a customer who meets the Company's credit standards may enter into an agreement to make annual payments over a ten-year period. The estimated revenue is based on the Load Letter submitted by a Professional Engineer on \_\_\_\_\_. Estimated revenue is the estimate of the Pure Base Revenue from the Customer for service from such main extension or reinforcement. The estimated cost of construction is based on the size of main required for the service requested but no less than the estimated cost of an 8-inch main. The estimated cost of construction hereunder includes, where applicable, the cost of a service line and service equipment. The prepayment amount may be revised and the Agreement amended if the Customer subsequently makes a material change in its requirements (e.g., a revised service point of entry, service commencement date, or Load Letter signed by a Professional Engineer) that affects estimated revenue or the Company's estimated construction cost.

If the Customer made a prepayment, it will be repaid to the Customer in monthly installments, without interest, until the earlier of its complete refund or ten years from the date when service is first supplied. Each monthly installment will be equal to one-tenth of the total amount of each bill for steam supplied to the Customer and, if applicable, one-tenth of the total amount of each bill for steam supplied to other new Customers connected by a service line to such main extension or reinforcement. The unrefunded prepayment, if any, remaining at the expiration of the said ten-year period or at the end of a lesser period in the event that the use of steam is permanently discontinued at the Customer's premises will be retained by the Company. The mains and service lines at all times shall remain the property of the Company.

As described in General Rule 3.1.5, the Customer may retroactively be required to make a payment, subject to the provisions described above, if the Company determines subsequent to extending or reinforcing the Company's mains that the Customer did not provide sufficient revenue to justify the expenditure involved within five years of the extension or reinforcement.
