APPLICATION FOR STEAM SERVICE - Continued

Part 3 Service Classification - Important Information

The cost and benefits of service vary under different service classifications, so it is important that your account be properly classified at the time it is established. A general description of all our service classifications may be found in the Application for Steam Service - Information Page, included with this application and/or located on the Company's website, at www.coned.com. Con Edison relies on the information you provide to properly classify your account. If your information is inaccurate or incomplete, you may be subject to backbilling. If your use of service or equipment changes at any time, you must notify Con Edison immediately. The more you tell us about your use of the premises and the kind of equipment you have and how you use it, the better we can assist you in determining whether you may be more economically served at a different rate. If you have any questions, you can refer to our rate schedule by viewing it on our Web site, at www.coned.com, or speak to one of our representatives. Customers who would like to view or obtain a print-out of the rate schedule or leaves in person may do so by calling 1-212-460-2011 to make the necessary arrangements.

For information about your rights and responsibilities as a customer, please refer to our *Rights and Responsibilities* pamphlet for nonresidential customers. If, however, you occupy a one- or two-family private residence, you are entitled to protections under the Home Energy Fair Practices Act (HEFPA) and should instead refer to our pamphlet for customers billed under residential or religious rates. Additional copies of either pamphlet are available upon request by calling 1-212-780-8855.

1. Steam information

- a. Check all intended uses of steam: ☐ Steam heating ☐ Steam air conditioning
☐ Steam water heating ☐ Steam process
- b. Is this the same equipment used by the previous occupant? ☐ Yes ☐ No
